

United States Mint, Philadelphia, Penn.,

ENGRAVER'S DEPARTMENT,

October 2, 1882

Sir

In answer to the letter of Mr Buraham dated 30th ultimo, I respectfully suggest, That should he decide not to have the rider, he will at least allow us to make a clip to carry the ring and attach the same to the medal, as shown in rough sketch, and thus avoid soldering which would deface the medal by discoloration. I think the cost of such an attachment would not be more than two dollars each, the die for striking clip about \$10.

Very Respectfully

Your obedient servant

Hon A. C. London, & Snowden

Superintendent

Chas. E. Barber

Engraver
